

Zhanshi Zhang

Front-End Web Developer

(626) 315 - 4071 | Chino, CA | [LinkedIn](#) | [Github](#) | [Email](#)

Skills

Strong: React.js, TypeScript, JavaScript, HTML5, Vanilla CSS3, Tailwindcss, Flexbox, JSON

Experienced: Ajax, Node.js, Express, Java, Hadoop, Yarn, Agile

Tools and Libraries: VS Code Studio, AWS, npm, Slack, Github, Git, Figma, PostgreSQL, Chrome DevTools

Languages: Chinese and English

Applications Developed

Recipe Management - A dynamic full-stack application that users can organize and share recipes

- Leveraged the **React** library, **TypeScript**, and **Tailwindcss** to create a dynamic and visually appealing front-end webpage
- Facilitated seamless communication between the front-end and back-end by implementing HTTP requests using **fetch** and **Express.js**
- Executed robust Create, Read, Update and Delete(CRUD) operations using **PostgreSQL**
- Utilized **DBdiagram** to generate a well-structured schema.sql file.
- Designed a responsive webpage that seamlessly adapts to both mobile and desktop devices.
- Employed **Figma** for visual prototyping and Tailwind CSS for efficient styling.

Yelp Simplified - A HTML, CSS and TypeScript application allowing users to search restaurants & manage reviews

- Implemented data retrieval and sorting from a public API via **fetch**.
- Demonstrated proficiency in dynamically altering styles and nodes within the **Document Object Model**.
- Developed Create, Read, Update and Delete(CRUD) operations with **TypeScript** and DOM.
- Crafted a responsive webpage that seamlessly adapts to both mobile and desktop devices with **HTML5**, **media query** and **flexbox**.

Professional Experience

Driver, Schneider National

05/2022 - 07/2023

- Successfully planned and executed optimal routes, ensuring timely deliveries, and interacted courteously with customers during pickups and drop-offs.
- Maintained a calm and professional demeanor even in changing situations.
- Communicated seamlessly with dispatchers and supervisors via radio or mobile devices.

Manager, World Hotpot

03/2018 - 01/2022

- Facilitated training sessions for new team members, ensuring they were well-prepared for their roles.
- Addressed customer concerns promptly and effectively, maintaining positive relationships.
- Managed employee schedules efficiently, optimizing productivity and minimizing gaps.

Education

Accelerated Full-Stack Web Development Program, Irvine, CA

- Programmed 10-12 hours a day for 14 weeks (800+ hours) in a simulated Agile work environment.

California State University, Fullerton, Fullerton, CA

- some computer science courses completed: Advanced Database Management, Algorithm Engineering, Compiler and Languages, System and Software Standards, Introduction to Machine Learning, Compiler and Languages.

Bachelor of Computer Science and Technology, Zhengzhou University, Zhengzhou, China
